

Analytics Strategy

Overview

Campaign performance was monitored throughout Project 2 using Instagram and Facebook Insights and Meta Business Suite. The collected data was used to evaluate audience engagement, identify high-performing content, and optimize future marketing decisions.

Objectives

- Monitor audience engagement across platforms.
- Compare the performance of different content formats.
- Identify the best-performing content categories.
- Evaluate campaign effectiveness using key performance indicators (KPIs).
- Apply data-driven improvements to future content.

Key Performance Indicators (KPIs)

- Reach
- Impressions
- Engagement Rate
- Likes
- Comments
- Shares
- Saves
- Reel Views
- Profile Visits
- Direct Messages
