

Instagram & Facebook Insights

Overview

Performance insights were collected after publishing campaign content to understand audience behavior and measure the effectiveness of different content formats.

Key Findings

- Educational carousel posts generated the highest number of saves and shares.
- Product launch posts attracted more direct messages and purchase inquiries.
- Reels achieved higher reach compared to static image posts.
- Interactive stories increased audience participation through poll responses and question stickers.
- Consistent posting improved overall profile visits and engagement.

Audience Demographics

Primary Age Group: 13 - 40 years

Top Gender: Female

Primary Location: Pakistan, India

Most Active Platform: Instagram

Best-Performing Content

Content	Performance Reason
Crochet FAQs – Part 2	High saves and shares
