

Influencer Outreach Strategy

Overview

Influencer marketing was introduced in Project 2 as a strategy to expand Yarn Charms' reach beyond its existing audience. Instead of focusing on large influencers, the campaign prioritizes micro-influencers whose audiences are more engaged and aligned with the handmade and small business niche.

The objective is to build authentic partnerships that increase brand awareness, generate engagement, and encourage product inquiries.

Objectives

- Increase brand visibility among relevant audiences.
- Build trust through authentic creator recommendations.
- Reach potential customers interested in handmade products.
- Encourage user-generated content.
- Drive traffic to Yarn Charms' social media pages.

Influencer Selection Criteria

- Pakistani content creators.
- Audience interested in handmade products, lifestyle, gifts, or crafts.
- Active engagement with followers.
- Positive and authentic online presence.
- Suitable for small business collaborations.

Collaboration Approach

The campaign focuses on gifting products in exchange for honest reviews, product showcases, unboxing videos, or Instagram Stories rather than paid sponsorship.
